

// SKYGRID NETWORKS · CLOUD NETWORK SECURITY

Yavuz Yıldız — Azure Network Engineer

● Available for projects

EU-registered · Estonia OÜ

Remote · Europe-wide

// SERVICE OFFERING V1.0

Your network. Audited. Secured.

Azure Network Engineering · Security · IaC · Monitoring · Consulting

Cloud network engineering services for European SaaS and technology companies. Fixed-price engagements, async-first delivery, EU-registered entity.

● Microsoft Certified: Azure Administrator (AZ-104)

● Azure Cloud Networking Specialist

● EU-registered · Estonia OÜ

// LINKEDIN NEWSLETTER

Cloud Networking (AZ-700) · The Detective Architect

Weekly insights on Azure network security, Zero Trust architecture, and cloud infrastructure. Read by Microsoft Engineers, Microsoft MVPs, Formula 1 Engineers, and IT security professionals across Europe.

01 AUDIT & ASSESSMENT

NETWORK

Azure Network Security Audit

⌚ 3 business days

€1,500
FIXED PRICE

Independent review of your Azure network configuration. NSG rules, exposed endpoints, VPN and firewall settings, traffic logging gaps, and unused resources — identified before attackers find them.

// DELIVERABLES

- Full audit report (PDF)
- Open port & exposure map
- Cost waste findings
- NSG rule analysis
- Prioritized fix list
- 30-day follow-up Q&A

COST

Azure Cost & FinOps Audit

€1,200

FIXED PRICE

🕒 3 business days

Identify unused resources, oversized VMs, orphaned disks, and unnecessary public IPs. Most companies overpay Azure by 30–40% — this audit shows exactly where the waste is and how to cut it.

// DELIVERABLES

- Cost waste report
- Savings estimate (€/month)
- Quick-win action list
- Unused resource list
- Rightsizing recommendations
- 30-day follow-up Q&A

INFRASTRUCTURE

Azure Infrastructure Health Check

€1,500

FIXED PRICE

🕒 3-4 business days

Review of VM security settings, disk encryption, backup configuration, update management, and role assignments. Covers compute and storage layers — complementary to the network audit.

// DELIVERABLES

- Infrastructure audit report
- Backup & recovery review
- Prioritized fix list
- VM security assessment
- RBAC role analysis
- 30-day follow-up Q&A

GOVERNANCE

Azure Compliance & Governance Audit

€2,000

FIXED PRICE

⌚ 4-5 business days

Azure Policy compliance, resource tagging, naming conventions, Management Group structure, and RBAC. Ideal for companies preparing for SOC 2, ISO 27001, or enterprise customer requirements.

// DELIVERABLES

- Governance gap report
- Policy compliance review
- Tagging & naming analysis
- RBAC structure review
- Remediation roadmap
- 30-day follow-up Q&A

FULL PACKAGE

Full Azure Security Posture Audit

€3,500
FIXED PRICE

⌚ 7 business days

Complete picture of your Azure environment — network, infrastructure, cost, and governance in one engagement. One report, one point of contact, one clear action plan.

// DELIVERABLES

- Network security audit
- Infrastructure health check
- Cost waste analysis
- Governance review
- Executive summary
- 30-day follow-up Q&A

02 CONFIGURATION & SETUP

NETWORK DESIGN

VNet & Subnet Architecture

€2,000-3,000
FIXED PRICE

⌚ Scoped per project

Design and implement a structured Azure virtual network architecture. Hub-spoke topology, subnet segmentation, peering, and routing — built to scale with your team.

// DELIVERABLES

- Network architecture diagram
- VNet & subnet setup
- Routing configuration
- Full documentation

SECURITY

NSG & Firewall Configuration

€1,500–2,500

FIXED PRICE

🕒 2-3 business days

Design and implement Network Security Group rules and Azure Firewall policies. Least-privilege access by default — only the traffic that needs to flow, flows.

// DELIVERABLES

- NSG rule set
- Firewall policy config
- Traffic flow documentation
- Test & validation report

CONNECTIVITY

VPN Gateway / ExpressRoute Setup

€2,500–4,000

FIXED PRICE

🕒 Scoped per project

Secure, reliable connectivity between your on-premises environment and Azure. Site-to-site VPN, point-to-site, or ExpressRoute — designed for your topology and latency requirements.

// DELIVERABLES

- Connectivity design
- Gateway configuration
- Testing & validation
- Full documentation

DNS

Azure DNS Configuration

€1,000–1,500

FIXED PRICE

🕒 1-2 business days

Azure DNS zones, private DNS, custom resolvers, and forwarder configuration. Clean, documented, and tested DNS setup for your cloud environment.

// DELIVERABLES

- DNS zone configuration
- Private DNS setup
- Resolver configuration
- Documentation

IAC

Terraform Network Infrastructure

€3,000–6,000

FIXED PRICE

🕒 Scoped per project

Your Azure network infrastructure — fully codified in Terraform. Reusable modules, versioned state, and documented deployment process. No more manual changes, no more configuration drift.

// DELIVERABLES

- Terraform modules
- State management setup
- Variable & environment config
- Deployment documentation

CI/CD

GitHub Actions Pipeline Setup

€2,000–3,500

FIXED PRICE

🕒 2-4 business days

Automated infrastructure deployment via GitHub Actions. Plan, validate, and apply on pull request — with approval gates and rollback capability built in.

// DELIVERABLES

- GitHub Actions workflows
- Approval gate setup
- Secret & credential management
- Pipeline documentation

POLICY

Network Policy as Code

€2,500–4,000

FIXED PRICE

🕒 Scoped per project

Azure Policy and network governance rules defined and deployed as code. Consistent enforcement across all environments — dev, staging, and production — without manual oversight.

// DELIVERABLES

- Policy definitions (code)
- Assignment configuration
- Compliance reporting setup
- Documentation

SETUP

Azure Monitor & Network Insights Setup

€1,500–2,500

FIXED PRICE

🕒 2-3 business days

Full observability for your Azure network — dashboards, alerts, and Log Analytics workspace configured. Know what's happening in your network before your users report a problem.

// DELIVERABLES

- Azure Monitor configuration
- Alert rules & thresholds
- Log Analytics workspace
- Network Insights setup
- Dashboard setup
- Documentation

ONGOING

Monthly Network Health Check

€700

PER MONTH

🕒 Monthly · async

Lightweight monthly review of your Azure network security posture. New misconfigurations, policy drift, and emerging risks — caught before they become incidents. No meetings required.

// DELIVERABLES

- Monthly security report
- Fix priority list
- New findings & drift alerts
- Async Q&A support

ONGOING

Network Performance Monitoring

€800

PER MONTH

🕒 Monthly · async

Continuous monitoring of network performance metrics — latency, throughput, packet loss, and connectivity health. Monthly report with trend analysis and recommendations.

// DELIVERABLES

- Performance report
- Anomaly findings
- Trend analysis
- Async Q&A support

05 CONSULTING & ADVISORY

ADVISORY

Network Architecture Consulting

€150
PER HOUR

🕒 Flexible

Expert guidance on Azure network design decisions — topology, security posture, connectivity options, and scalability. Async-first: structured written answers, not open-ended calls.

// DELIVERABLES

- Written recommendations
- Architecture review notes
- Decision documentation
- Follow-up Q&A

MIGRATION

Azure Migration Consulting

€2,000–5,000
FIXED PRICE

🕒 Scoped per project

Planning and guidance for migrating on-premises network infrastructure to Azure. Assessment, design, phased migration plan, and post-migration validation.

// DELIVERABLES

- Migration assessment
- Target architecture design
- Phased migration plan
- Risk & dependency map
- Post-migration checklist
- 30-day follow-up Q&A

RETAINER

Fractional Network Engineer

€1,500–3,000
PER MONTH

🕒 Monthly retainer

Dedicated network engineering support without a full-time hire. Available for architecture decisions, configuration reviews, incident support, and ongoing advisory — async and on-demand.

// DELIVERABLES

- Dedicated async support
- Monthly check-in report
- Architecture reviews
- Incident response support

02 WHY WORK WITH ME

Read-only access, always

Audits require only read permissions. Your environment is never modified during any engagement.

EU-registered company

Estonia OÜ – GDPR-compliant by default. Simple contractor setup, no employment overhead.

Fixed price, clear scope

You know exactly what you get before we start. No hourly billing, no scope surprises.

Fast and fully async

3-day turnaround. Fully remote – no meetings required unless you want them.

03 HOW IT WORKS

01

BRIEF

You describe your setup. We confirm scope via email or LinkedIn.

02

ACCESS

You grant temporary read-only permissions. Nothing is ever changed.

03

AUDIT

We review your environment and document all findings within 3 days.

04

REPORT

Full PDF report with prioritized fixes and 30-day Q&A window.
