

Your network. Audited. Secured.

Azure Network Engineering · IaC · Monitoring · Consulting

- Microsoft Certified: Azure Administrator (AZ-104)
- Azure Network Engineer
- CCNA — Networking Foundation (all three courses completed)
- Republic of Georgia · Europe-wide

Cloud network engineering services for European SaaS and technology companies. Fixed-price engagements, async-first delivery, Europe-wide operations. Azure-exclusive focus, built on a solid networking foundation (CCNA).

// HOW IT WORKS

01 Discovery

Send an email or connect on LinkedIn. Brief async Q&A; to understand your environment.

02 Fixed Proposal

Written scope + fixed price before any work begins. No surprises, no hidden hours.

03 Delivery

Async-first execution. Full documentation and PDF report delivered on time.

04 Follow-up

Every engagement includes 30 days of Q&A; support after delivery.

01

Audit & Assessment

NETWORK

Azure Network Security Audit

€1,500

FIXED PRICE

□ 3 business days

Independent review of your Azure network configuration. NSG rules, exposed endpoints, VPN and firewall settings, traffic logging gaps, and unused resources — identified before attackers find them.

// DELIVERABLES

- | | |
|----------------------------|-------------------------|
| → Full audit report (PDF) | → Prioritized fix list |
| → NSG rule analysis | → Cost waste findings |
| → Open port & exposure map | → 30-day follow-up Q&A; |

COST

Azure Cost & FinOps Audit

€1,200
FIXED PRICE

☐ 3 business days

Identify unused resources, oversized VMs, orphaned disks, and unnecessary public IPs. Most companies overpay Azure by 30–40% — this audit shows exactly where the waste is and how to cut it.

// DELIVERABLES

- Cost waste report
- Unused resource list
- Savings estimate (€/month)
- Rightsizing recommendations
- Quick-win action list
- 30-day follow-up Q&A;

INFRASTRUCTURE

Azure Infrastructure Health Check

€1,500
FIXED PRICE

☐ 3–4 business days

Review of VM security settings, disk encryption, backup configuration, update management, and role assignments. Covers compute and storage layers — recommended as a follow-on to the Network Security Audit.

// DELIVERABLES

- Infrastructure audit report
- VM security assessment
- Backup & recovery review
- RBAC role analysis
- Prioritized fix list
- 30-day follow-up Q&A;

// STARTER BUNDLE

Network Security Audit + NSG & Firewall Configuration

€2,800 — FIXED PRICE

New to Azure security audits? Combines your first security audit with immediate NSG & Firewall remediation — from diagnosis to fix in one engagement.

02

Configuration & Setup

NETWORK DESIGN

VNet & Subnet Architecture

€2,000–3,000
FIXED PRICE

☐ Scoped per project

Design and implement a structured Azure virtual network architecture. Hub-spoke topology, subnet segmentation, peering, and routing — built to scale with your team.

// DELIVERABLES

- Network architecture diagram
- VNet & subnet setup
- Routing configuration
- Full documentation

SECURITY

NSG & Firewall Configuration

€1,500-2,500
FIXED PRICE

☐ 2-3 business days

Design and implement Network Security Group rules and Azure Firewall policies. Least-privilege access by default — only the traffic that needs to flow, flows.

// DELIVERABLES

- NSG rule set
- Firewall policy config
- Traffic flow documentation
- Test & validation report

DNS

Azure DNS Configuration

€1,000-1,500
FIXED PRICE

☐ 1-2 business days

Azure DNS zones, private DNS, custom resolvers, and forwarder configuration. Clean, documented, and tested DNS setup for your cloud environment.

// DELIVERABLES

- DNS zone configuration
- Private DNS setup
- Resolver configuration
- Documentation

03

Automation & IaC

IAC

Terraform Network Infrastructure

Tiered pricing
FIXED PRICE

☐ Scoped per project

Your Azure network infrastructure — fully codified in Terraform. Reusable modules, versioned state, and documented deployment process. No more manual changes, no more configuration drift.

● Starter **€2,800**

Single subscription, single VNet, 1 environment. VNet, NSG, subnets, remote state. Ideal for most small SaaS teams.

● Standard **€4,200**

2-3 subscriptions or hub-spoke, dev/staging/prod. Modular structure, env-separated variables. GitHub Actions CI/CD included.

● Advanced **€6,000**

Multi-subscription + management group, Policy as Code. Landing zone architecture, compliance enforcement.

// DELIVERABLES

- Terraform modules
- State management setup
- Variable & environment config
- Deployment documentation

CI/CD

GitHub Actions Pipeline Setup

€2,000-3,500

FIXED PRICE

☐ 2-4 business days

Automated infrastructure deployment via GitHub Actions. Plan, validate, and apply on pull request — with approval gates and rollback capability built in.

// DELIVERABLES

- GitHub Actions workflows
- Secret & credential management
- Approval gate setup
- Pipeline documentation

04

Monitoring & Ongoing Support

SETUP

Azure Monitor & Network Insights Setup

€1,500-2,500

FIXED PRICE

☐ 2-3 business days

Full observability for your Azure network — dashboards, alerts, and Log Analytics workspace configured. Know what's happening in your network before your users report a problem.

// DELIVERABLES

- Azure Monitor configuration
- Dashboard setup
- Network Insights setup
- Log Analytics workspace
- Alert rules & thresholds
- Documentation

ONGOING

Monthly Network Health Check

€700

PER MONTH

☐ Monthly · async

Lightweight monthly review of your Azure network security posture. New misconfigurations, policy drift, cost anomalies, and emerging risks — caught before they become incidents. Includes basic performance trend review. No meetings required.

// DELIVERABLES

- Monthly security report
- Fix priority list
- New findings & drift alerts
- Async Q&A; support
- Cost & performance snapshot

Consulting & Advisory

ADVISORY

Network Architecture Consulting

€175

PER HOUR

☐ Flexible

Expert guidance on Azure network design decisions — topology, security posture, connectivity options, and scalability. Async-first: structured written answers, not open-ended calls.

// DELIVERABLES

- Written recommendations
- Decision documentation
- Architecture review notes
- Follow-up Q&A;

MIGRATION

Azure Migration Consulting

€2,000-5,000

FIXED PRICE

☐ Scoped per project

Planning and guidance for migrating on-premises network infrastructure to Azure. Assessment, design, phased migration plan, and post-migration validation.

// DELIVERABLES

- Migration assessment
- Risk & dependency map
- Target architecture design
- Post-migration checklist
- Phased migration plan
- 30-day follow-up Q&A;

RETAINER

Fractional Network Engineer

€1,500-3,000

PER MONTH

☐ Monthly retainer

Dedicated network engineering support without a full-time hire. Available for architecture decisions, configuration reviews, incident support, and ongoing advisory — async and on-demand. Typically the next step after an initial audit engagement.

// DELIVERABLES

- Dedicated async support
- Architecture reviews
- Monthly check-in report
- Incident response support

Ready to secure your Azure environment?

Send an email to start a scoped conversation. Fixed proposal before any work begins.
